

SUMMARY OF REASONS/CHANGES  
PROPOSED FOR DIVISION 14,  
HAZARDOUS WASTE PROGRAM  
ADEM ADMINISTRATIVE CODE

RCRA §3006(b) requires that authorized State Programs be “equivalent” to the Federal program and continue to maintain equivalency as the Federal program changes. Thus, in order to retain state primacy in the hazardous waste program, ADEM must update its Administrative Code to reflect changes in the federal requirements for the regulation of hazardous waste.

ADEM is proposing that the Environmental Management Commission adopt regulations reflecting changes made to EPA’s regulations from July 15, 2006 through June 30, 2007. The rules have also been revised to update and clarify existing requirements. Definitions have been re-formatted to better serve the reader. Language has been added to clarify certain regulations in the existing rules. Requirements have been added for waste minimization plans, Exception Reporting, and to require generators to document the amount of hazardous waste generated each month. The Department is also proposing to correct a number of typographical and citation errors in the existing regulations.

**SUMMARY OF CHANGES  
PROPOSED FOR DIVISION 14,  
HAZARDOUS WASTE PROGRAM  
ADEM ADMINISTRATIVE CODE**

<b>RULE</b>	<b>COMMENTS/REASONS FOR CHANGE</b>
335-14-1-.02	Deleted duplicate definition for “consignee” and revised remaining definition of “consignee” to reflect both definitions; revised definition of “on-site” to reflect corrections made in CFR; corrected errors in alphabetizing definitions; renumbered definitions; corrected typographical errors; corrected citation(s).
335-14-1-.03	Corrected citation(s).
335-14-2-.01	Corrected typographical errors; corrected citation(s); deleted definition of Conditionally Exempt Small Quantity Generator because definition can be found in Chapter 1.
335-14-2-.03	Corrected citation(s).
335-14-2-.04	Corrected typographical errors; corrected errors in ordering to mirror CFR; made corrections to chemical names; made corrections to Table 1; corrected citation(s).
335-14-2-.05	Corrected typographical error.
335-14-2-Appendix VIII	Corrected CAS number of Carbofuran phenol; corrected typographical errors; corrected errors in ordering to mirror CFR.
335-14-2-Appendix IX	Corrected errors in ordering to mirror CFR; replaced missing language; corrected citation(s).
335-14-3-.03	Added requirements for generators to document the amount of hazardous waste generated each month; clarified requirement for employee training; corrected citation(s).
335-14-3-.04	Added requirements for waste minimization plans; made corrections to numbering of subsections; consolidated similar rules; added requirements for Exception Report reporting.
335-14-4-.05	Corrected citation(s).
335-14-5-.03	Added clarifying language.

RULE	COMMENTS/REASONS FOR CHANGE
335-14-5-.04	Added clarifying language.
335-14-5-.09	Added requirement to document the number of containers present during storage area inspections.
335-14-5-.10	Corrected citation(s).
335-14-5-.14	Corrected citation(s).
335-14-5-.19	Corrected citation(s).
335-14-6-.02	Moved requirement to document the number of containers present during storage area inspections to a more appropriate location.
335-14-6-.03	Added clarifying language.
335-14-6-.04	Added clarifying language.
335-14-6-.09	Revised rule to adopt wording found in Federal Rule; added requirement to document the number of containers present during storage area inspections; added clarifying language.
335-14-6-.10	Corrected citation(s).
335-14-6-.14	Corrected citation(s).
335-14-7-.06	Corrected citation(s).
335-14-8-.01	Updated out of date language.
335-14-8-.02	Corrected citation(s).
335-14-11-.01	Added language to clarify what type of lamps can not be handled as universal waste.
335-14-17-.05	Corrected citation(s); corrected NRC contact number.
335-14-17-.06	Corrected citation(s); added clarifying language.
335-14-17-.07	Corrected citation(s).
335-14-17-.08	Corrected Land Division contact number.
